

Open Mesh – Current Device Owner Authorization to Transfer Management

This form is used to allow the current owner of an Open Mesh device to authorize the transfer of management of the device in cases where the previous owner/manager of the device is not available to authorize the transfer.

+++++

Current Device Owner certifies it is the current legal owner (or is authorized by the current legal owner) of the Open Mesh device identified below. Current Device Owner hereby authorizes Open Mesh to release the device from the CloudTrax account to which the device is already registered in order to allow the device to be registered to a CloudTrax account managed by Current Device Owner. Once it registers the device in CloudTrax, Current Device Owner agrees to be bound by the Cloudtrax Services Agreement.

Current Device Owner agrees that if any party challenges this transfer, Open Mesh may take any action which Open Mesh in its sole discretion deems reasonable, including transferring management of the device back to the previous owner/manager. Current Device Owner agrees to be responsible for and hold Open Mesh harmless from any liability related to this transfer.

By the signature below of its authorized representative, Current Device Owner agrees to the terms set forth above.
